

PORTABLE, SOLAR-POWERED WEATHER LOGGER

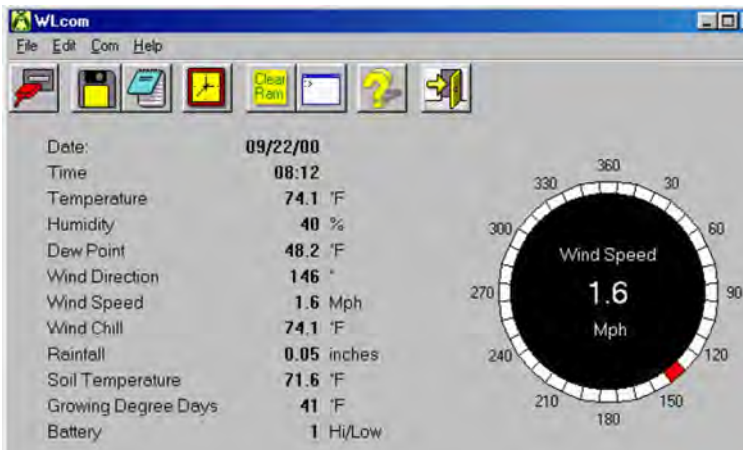

Collect weather data in remote locations

www.rainwise.com/portlog

The PortLOG™

- Unpacks and deploys in just minutes.
- Ships fully assembled in rugged transport case.
- Measure and record Temperature, Wind Speed, Wind Direction, Barometric Pressure, Relative Humidity, Dew Point, Solar Radiation and Rainfall.
- All sensors are traceable to NIST.
- 3-Watt solar panel and 5AH sealed lead acid battery ensure reliable operation in the harshest conditions.
- The standard 128 RAM will store up to a year's worth of data and offers a selectable record rate of once a minute to once an hour.
- The PortLOG data retrieval software exports reports to Excel.
- Memory upgrades are available.
- 5-year warranty.
